

## ScentWave Technical Specifications

The ScentWave scent delivery system is ideal for creating ambient scent zones in any business setting. It uses a dry-air technology that releases fragrance without sprays, aerosols or heated oils. Adjustable duration and intensity settings make it easy to customize the scent output for any environment. The ScentWave offers multiple installation options and is easy to maintain.

Each ScentWave is loaded with a scent cartridge that is embedded with a unique fragrance. These cartridges can be easily replaced, enabling you to change scents to coordinate with new themes or seasons.
